## 1. DF-2 Capital Adequacy

### 1.1. Qualitative Disclosures

The role of capital is to act as a buffer against future un-identified losses, thereby protecting deposits and other creditors. The losses include both expected and unexpected losses. Expected loss is incurred during the normal operations of the Bank and the unexpected loss can occur from any of the risk sources. The amount of capital the Bank would hold, therefore, depends on the loss distribution (whether arising from credit, market or operational or any other kinds of risk), its risk appetite, as well as the risk bearing capacity.

ADCB India maintains more than adequate capital levels considering its business and operational risk profile and takes care of unforeseen contingencies. The capital planning process of the bank ensures that the capital available for the Bank is at all times in line with the risk appetite of the Bank.

ADCBI's ICAAP Management framework, aims to ensure that capital supports business growth. The ICAAP also stipulates that minimum capital of 12.50% shall maintained by Bank, which exceed the minimum statutory requirement of 9.625%.

One of the aims of the ICAAP is to ensure that management adequately identifies and measures the Bank's risks. The process also checks that management takes steps to ensure that the Bank maintains sufficient internal capital relative to its risk profile and that it applies and develops proper risk management systems. Pursuant to regulatory requirements, Reserve Bank of India (RBI) will review and assess the application of ICAAP and the quality of the in-house management procedures of which ICAAP forms an integral part.

### 1.2. Quantitative Disclosures

#### 1.2.1. Capital Requirements for Credit Risk, Market Risk and Operational Risk

(Rs. in '000)

<b>Capital Adequacy</b>	
<u>Credit Risk</u>	
Total Portfolio subject to credit risk	35,662,558
Capital Requirement under standardised approach	1,232,160
<u>Market Risk</u>	
(i) Interest rate risk	21,934
(ii) Equity position risk	-
(iii) Foreign exchange risk	36,000
<b>Capital Requirement : Total (i+ii+iii)</b>	<b>57,934</b>
<u>Operational Risk</u>	
Capital Requirement under Basic Indicator Approach	87,977
<b>Total Risk Weighted Assets</b>	<b>14,700,286</b>

## 1.2.2. Capital Adequacy Ratio (CRAR)

CRAR	24.89%
CRAR – Tier 1 Capital (%)	24.13%

## 2. DF-3Credit Risk: General Disclosures for All Banks

### 2.1. Qualitative Disclosures

#### 2.1.1. Overview of policies and procedures

Credit risk reflects the risk of losses because one or more counterparties fail to meet all or part of their obligations towards the Group. Credit risk includes concentration, settlement and underwriting risk.

***The Credit Risk Management Framework is summarised as under:***

Identification	The Bank endeavours to identify all material risks that may affect it. This is a dynamic process that favours management considerations in the development of new products.
Policies	The Credit policy is designed to be an essential management tool providing readily accessible assistance and support to corporate, trade finance and credit professionals as well as senior management and other interested users.
Measuring and Handling Risk	To ensure measurement gives a fair presentation of underlying portfolios and transactions, continuous monitoring of various models and methods is carried out.
Parameter Applications	In order to capitalise on the Bank's risk appetite, the Bank applies risk based data about customers, industries, countries, etc in the day-to-day handling of customer transactions.
Controls	The Bank has established an independent control environment to monitor and enforce approved policies and limits.
Reporting	The Bank applies a systematic risk reporting at all levels of the organisation and openness in the reporting of risk factors to the Bank's stakeholders.

***The key objectives of Bank's Credit Policy are as follows:***

Bank's Loan Policy is devised for regulating the Bank's resources towards remunerative means, for directed national priorities and also for achieving uniformity in the lending activity bank wide. This policy is meant to cover the macro and micro issues ***at the broad policy level***. Credit deployment is required to be implemented in conjunction with various regulatory and operational guidelines issued from time to time. This Credit / Loan Policy would continue as a "**Credit Risk Policy**" of the Bank.

The objectives of the loan policy would precisely be as follows:

- To ensure credit growth both quantitatively and qualitatively through various channels in line with the common goals and objectives of the Bank.
- To build-up and maintain a well diversified credit portfolio.
- To strengthen the credit delivery system and to instil a sense of credit culture enterprise-wide.

- To strengthen the Credit Risk Management System with parameterization of risk identification, measurement, monitoring and mitigation.
- To set up prudential exposure norms and to address issues of credit concentration.
- To provide for risk based Loan Pricing Policy.
- To comply with various regulatory requirements, more particularly on Exposure norms, Priority Sector norms, Income Recognition and Asset Classification guidelines, Credit Risk Management guidelines etc. of RBI / HO / other authorities.
- To guide officials handling credit to decide whom, why, how much, what rate, what period and with what terms and conditions to lend. How to monitor, follow up, and recover the facility extended.

*The Bank has undertaken the following **measures for mitigating risk** and strategies/processes for monitoring the continuing effectiveness of mitigants:*

- Clear definition of acceptable collaterals and factors governing the same
- Ensuring that there is no material positive correlation between borrower and guarantor
- Thorough analysis of strength of collaterals in terms of its legal certainty, enforceability and liquidity
- Creation of minimum stipulations and conditions for acceptance and valuation of collaterals
- Analysis of strength of guarantees in terms of its coverage of risks, enforceability and documentation
- Clearly outline in the policy the cases where insurance cover is required to be taken
- Regular monitoring and valuation of collaterals
- Clear and robust procedure for timely liquidation of collateral for prompt liquidation including those held by a custodian.
- Credit rating of obligors.

### **2.1.2. Past Due and Impaired Loans**

The bank is following guidelines issued by Reserve Bank of India relating to income recognition, asset classification and provisioning of advances.

A non performing asset (NPA) is a loan or an advance where;

- i. interest and/ or instalment of principal remain overdue for a period of more than 90 days in respect of a term loan,
- ii. the account remains 'out of order' as indicated at paragraph 2.2 below, in respect of an Overdraft/Cash Credit (OD/CC),
- iii. the bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted,
- iv. the instalment of principal or interest thereon remains overdue for two crop seasons for short duration crops,
- v. the instalment of principal or interest thereon remains overdue for one crop season for long duration crops,
- vi. the amount of liquidity facility remains outstanding for more than 90 days, in respect of a securitisation transaction undertaken in terms of guidelines on securitisation dated February 1, 2006.

- vii. in respect of derivative transactions, the overdue receivables representing positive mark-to-market value of a derivative contract, if these remain unpaid for a period of 90 days from the specified due date for payment.

In case of interest payments, banks should, classify an account as NPA only if the interest due and charged during any quarter is not serviced fully within 90 days from the end of the quarter.

**‘Out of Order’ status**

An account will be treated as ‘out of order’ if the outstanding balance remains continuously in excess of the sanctioned limit / drawing power. In cases where the outstanding balance in the principal operating account is less than the sanctioned limit / drawing power, but there are no credits continuously for 90 days as on the date of Bank’s Balance Sheet, or where credits are not enough to cover the interest debited during the same period, such accounts are treated as ‘out of order’.

**‘Overdue’**

Any amount due to the Bank under any credit facility is ‘overdue’ if it is not paid on the due date fixed by the Bank.

**2.2. Quantitative Disclosures**

**2.2.1. Total Credit Risk Exposure and Geographic Distribution**

(Rs. in 000’s)

Geographic Distribution of Exposures			
	Domestic	Overseas	Total
Fund Based	18,562,535	1,282,111	<b>19,844,646</b>
Non-fund Based	1,366,837	2,784,398	<b>4,151,235</b>
<b>Total Gross Credit Exposure</b>	<b>19,929,372</b>	<b>4,066,509</b>	<b>23,995,881</b>

2.2.2. Industry Type distribution of Exposure: -

(Rs. in '000)

Industry Type Distribution of Exposures (Gross)		
Industry Name	Fund Based Exposure	Non Fund Based Exposure
All Engineering	1,639,618	1,651,814
Chemicals, Dyes, Paints etc	500,000	0
Construction	400,000	0
Computer Software	0	315
Food Processing	1,500,000	1,987
Gems and Jewellery	0	3,700
Infrastructure	2,815,852	150,300
Iron and Steel	230,794	0
Other Metal and Metal Products	1,290,296	280,000
Other Textiles	993,800	0
Petroleum (non-infra), Coal Products (non-mining) and Nuclear Fuels	450,000	0
Residuary other advances	9,573,833	2,063,119
Rubber, Plastic and their Products	450,000	0
Vehicles, Vehicle Parts and Transport Equipments	453	0
<b>Grand Total</b>	<b>19,844,646</b>	<b>4,151,235</b>

2.2.3. Residual Contractual Maturity breakdown of Assets

(Rs. in '000)

Maturity Pattern	Cash, Balances with RBI and other Banks	Advances	Investment	Other Assets including Fixed Assets
		(Net)	(Net)	
0-1 day	4,399,546	84,725	0	742
2-7 days	1,117,504	13,555	0	7,237
8-14 days	35,702	63,144	0	207
15-30 days	2,700	2,289,187	49,764	18,783
31 days 2 months	65,969	2,299,587	193,530	888
2 months 3 months	39,367	2,679,690	664,044	8,177
3-6 months	548,611	2,076,992	2,074,537	41,579
6-12 months	75,312	1,291,233	473,932	5,449
1-3 years	176,026	3,292,301	248,195	0
3-5 years	4,928	2,458,605	1,045,578	0
Over 5 years	38,592	57,062	2,028,979	770,461
<b>Total</b>	<b>6,504,257</b>	<b>16,606,081</b>	<b>6,778,557</b>	<b>853,525</b>

#### 2.2.4. Amount of Non-Performing Advances (NPAs)

(Rs. in '000)

NPAs (Gross) as on 30.06.2016	
Category	Amount
Sub-Standard	0
Doubtful 1	0
Doubtful 2	230,794
Doubtful 3	0
Loss	282
<b>Total</b>	<b>231,076</b>

#### 2.2.5. NPA Ratios

NPA Ratios as on 30.06.2016	
Gross NPAs to Gross Advances	1.37%
Net NPAs to Net Advances	0.08%

#### 2.2.6. Amount of Net NPAs: 13,521 Thousand.

#### 2.2.7. Movement of NPAs and Movement of Provisions for NPAs

(Rs. in 000)

Movement of NPAs (Gross)		Movement of provisions for NPAs (Gross)	
(i) Opening Balance at the beginning of the year	<b>231,076</b>	(i) Opening Balance at the beginning of the year	<b>217,555</b>
(ii) Additions during the year	0	(ii) Provisions made during the year	0
(iii) Reductions during the year	0	(iii) Write-offs made during the year	0
(iv) Write-offs made during the year	0	(iv) Write-back of excess provisions made during the year	0
Closing Balance as at the end of the year (i+ii-iii-iv)	<b>231,076</b>	Closing Balance as at the end of the year (i+ii-iii-iv)	<b>217,555</b>

#### 2.2.8. Amount of Non-Performing Investments: 0

**Amount of Provisions held for Non-Performing Investments: 0**

Amount of Non-Performing Assets (Application Money): Rs. 0.10 thousand

**Amount of Provisions held for Non-Performing Assets (Application Money): Rs.0.10 thousand**

### 2.2.9. Movement of Provision for Depreciation on Investments –

(Rs. in 000)

Movement of Provision for Depreciation on Investments	
(i) Opening Balance at the beginning of the year	18,100
(ii) Provisions made during the year	0
(iii) Write-offs made during the year	
(iv) Write-back of excess provisions made during the year	(18,100)
<b>Closing Balance as at the end of the year (i+ii-iii-iv)</b>	<b>0</b>

### 2.2.10. Movement of General Provision –

(Rs. in 000)

Movement of General Provision*	Amount
(i) Opening Balance at the beginning of the year	118,846
(ii) Additions during the year	0
(iii) Reductions during the year	8,988
(iv) Write-offs made during the year	0
<b>Closing Balance as at the end of the year (i+ii-iii-iv)</b>	<b>109,858</b>

\*includes provision for Standard Asset, Floating, Sale of NPAs and Country Risk.

## 3. DF-4 Credit Risk: Disclosures for Portfolios subject to Standardised approach

### 3.1. Qualitative Disclosures

#### 3.1.1. Ratings

As per the RBI guidelines, the bank has identified CRISIL, ICRA, CARE Brickwork Rating India P. Ltd and Fitch India (Domestic Credit Rating Agencies) and Fitch, Moody's and S & P (International Rating Agencies) as approved rating agencies, for the purpose of rating the domestic and overseas exposures respectively, whose ratings are used for the purpose of capital calculation.

Currently most of the credit exposures of the bank are rated by aforesaid rating agencies as per RBI guidelines.

#### Types of exposures for which each agency will be used

- For exposures with a contractual maturity of less than or equal to one year (except cash credit, overdraft and other revolving credits), short-term ratings given by approved rating agencies to be used
- For domestic cash credit, overdraft and other revolving credits (irrespective of the period) and for Term Loan exposures of over one year, long term ratings to be used
- For overseas exposures, irrespective of the contractual maturity, long term ratings given by approved rating agencies to be used

## Description of the process used to transfer Public Issue Ratings onto comparable assets in Banking Book

Long-term issue specific ratings (for the bank's own exposures or other issuance of debt by the same borrower-constituent/ counterparty) or issuer (borrower-constituent/ counterparty) ratings are applied to other unrated exposures of the same borrower-constituent/ counterparty in the following cases:

- If the issue specific rating or issuer rating maps to risk-weight equal to or higher than the unrated exposures, any other unrated exposure on the same counterparty is assigned the same risk weight, if the exposure ranks pari-passu or junior to the rated exposure in all respects
- In cases where the borrower-constituent/ counterparty has issued a debt (which is not a borrowing from the bank) the rating given to that debt is applied to the bank's unrated exposures, if the bank's exposure ranks pari-passu or senior to the specific rated debt in all respects and the maturity of unrated bank's exposure is not later than the maturity of rated debt

### 3.2. Quantitative Disclosures

#### 3.2.1. Exposure amounts after Risk Mitigation (subject to the standardised approach)

(Rs. in 000)

Sr No.	Exposure amounts after risk mitigation	Amount
1	Below 100% risk weight exposure outstanding	30,319,554
2	100% risk weight exposure outstanding	4,897,335
3	More than 100% risk weight exposure outstanding	440,276
4	<b>Total</b>	<b>35,657,165</b>

### 4. DF-5 Leverage ratio common disclosure template:

The leverage ratio has been calculated using definitions of capital and total exposure. The Bank's leverage ratio, calculated in accordance with the RBI guidelines under consolidated framework is as follows:

Sr No.	Particulars	Amount
1	Tier 1 Capital	3,537,799
2	Exposure Measure	36,107,093
	<b>Leverage Ratio</b>	<b>9.80%</b>
